No. : Our File: P-11-12/013

Sir,

Hereby we notify you in writing that in Quebec, according to the provisions of Articles 32 of the *Professional Code* and 31 of the *Medical Act*, only persons authorized by law can diagnose and / or treat the impairment of health of their fellow citizens, or act in ways that lead to the belief that they are authorized to do so.

According to the information we have on hand, you are not a member in good standing of a recognized professional order in the field of health in Quebec.

We draw your particular attention to the contents of your website, www.erichamel.com, particularly in the advertising of your "healing workshops" offered in several municipalities in Quebec.

As you know, the context of your business was revealed to the public in October 2011, in the emissions of J.E. and Denis Lévesque at T.V.A.

We ask you to make the necessary corrections to all your publications and to discontinue treatment of impairment of health of people who use your 'services'.

For additional information, we inform you that the legislature provided for in section 188 of the *Professional Code* for each violation of the laws mentioned above, a minimum fine of \$ 1 500 and not more than \$ 20 000, will be imposed and for a subsequent offense, the amounts will be doubled.

Feel free to contact me for further information.

Please accept, Mister, my best greetings.

Ken Holland,
investigator
